

Lab 2 — Sprint Burndown (Story Points) | Restaurant Table Booking & Pre-Ordering App (PS #36)

Sprint 1 (1 week) — committed 18 pts, completed 13 pts

Sprint 2 (1 week) — committed 11 pts, completed 11 pts

Points burn only when a whole story is accepted, so the line steps down per story rather than sloping. Both sprints were simulated in a single session, which is why the Jira charts drop vertically against the calendar.
